- Warehouses and workshops, outdoor spaces
- Base and wellness centers
- Bathrooms and changing rooms

## DESIGN

Smooth  
with perforation

## LOCK TYPE

Hidden

## ACCESSORIES

Corner  
and ramp

## BENEFITS

- Easy assembly and disassembly
- Perforated design for water drainage and floor drying
- Simple maintenance
- Anti-slip and damping properties
- Variable design
- Robust construction

## WHY AERO TO THE GARAGE AND WORKSHOP

- Various activities are often carried out in the workshop and garage, which require durable and practical floor. Perforated paving is ideal for these purposes because it offers a range of textures that improve comfort and safety while working. That's why it will come in handy for your normal operation and accidental situations.
- **Vehicle maintenance and repair**  
Resistant to chemicals, oils and solvents, which can spill when working with cars.
- **Cleaning and washing vehicles**  
Perforated design ensures efficient water drainage, so the floor dries quickly and does not slip.
- **Work with tools and machines**  
Non-slip property of paving increases safety when handling heavy objects and tools.
- **Storage of equipment and materials**  
Thanks to easy maintenance and disassembly floor tiles can be cleaned quickly and easily under the floor.
- **Woodworking or DIY**  
Reduced dustiness and easy cleaning are ideal for jobs where sawdust or dust.
- **Vehicle interior modifications (e.g. detailing, Car Wrap)**  
Perforated pavement has a stable surface that is easy to wash and maintains the workspace neat.
